M. ZOHAIB WAQAR

MERN Stack Developer

0316-7918426 | Lahore, Pakistan | zohaibw720@gmail.com | linkedin.com/in/zohaib-waqar-086572382 | github.com/zohaibw720-hue

PROFILE SUMMARY

BS Software Engineering graduate and full-stack MERN Developer seeking an Associate Software Engineer role. Completed professional MERN training at ExD / NAVTTC and build end-to-end applications: React.js and JavaScript on the frontend, Node.js and Express.js REST APIs on the backend, and MongoDB for data (MongoDB Atlas for deployed apps), with endpoints tested in Postman. Projects include an AI-based tourism system (FYP), a School Management System, an E-Commerce platform, an AI job tracker and a developer collaboration platform. Strong foundation in C++, OOP and data structures & algorithms. Eager to learn, take ownership and contribute to real-world products in a team.

TECHNICAL SKILLS

Frontend	HTML5, CSS3, JavaScript (ES6+), React.js, React Router, Context API, Responsive UI
Backend	Node.js, Express.js, RESTful API design, Authentication & CRUD operations
Database	MongoDB (local & MongoDB Atlas cloud), Mongoose schema design, MySQL (SQL)
Tools	Postman (API testing), Git & GitHub, VS Code, Vercel (deployment)
Programming & CS	C++, Object-Oriented Programming (OOP), Data Structures & Algorithms
Languages	English, Urdu

EXPERIENCE

MERN Stack Developer Trainee | ExD / NAVTTC — Jun 2026 – Sep 2026

- Completed MERN stack training; built responsive web apps with React.js, JavaScript, Node.js and Express.js.
- Built reusable React components, consumed REST APIs and performed MongoDB / MongoDB Atlas database operations.
- Tested APIs with Postman; used Git and GitHub for version control; debugged and improved application performance.

PROJECTS

AI Smart Tower — Travel & Tourism System (FYP)

React.js · Node.js · Express.js · MongoDB

- Full-stack tourism management system with responsive UI, backend REST APIs and AI chatbot features.

School Management System

React.js · Node.js · Express.js · MongoDB · Postman

- Full-stack app to organize school records and workflows, with a React.js frontend and Node/Express REST API.
- Designed MongoDB schemas for students, teachers and classes; tested all endpoints with Postman.

Urban Cart — E-Commerce Website ecommerce-arns.vercel.app

React.js · JavaScript · CSS · Node.js · Express.js · MongoDB Atlas · Postman

- Responsive online shopping app deployed on Vercel with a cloud MongoDB Atlas database; REST API backend with MongoDB schemas for products, cart and orders.
- Tested all endpoints with Postman.

AI JobTrack — AI-Powered Job Platform

React.js · Node.js · Express.js · MongoDB

- Job application tracker with application status management and interview features.

DevConnect — Developer Collaboration Platform

React.js · Express.js · MongoDB

- Platform for developers to share projects and connect with other developers.

Personal Portfolio Website

React.js · Node.js · Express.js · CSS · REST API

- Developed a responsive full-stack portfolio website showcasing technical skills, projects, education and experience.
- Integrated a Node.js/Express backend with the contact form to process messages and send email notifications.

EDUCATION

BS Software Engineering, University of Gujrat — 2022 – 2026

Intermediate (ICS), Paradise College — 2020 – 2022
